

# Kitchen

We are always looking for new ways to make everyday tasks easier. Our Kitchen and Outdoor range provides valuable assistance for those with a weak grip or reduced mobility, drawing on feedback from users and Occupational Therapists.

Kitchen and Outdoor

# Bigfoot Half Step

- Reduces the step height between a door and the ground
- Add one or two support handles for extra stability
- Step adjusts from 4 to 5 inches for the perfect height

The Bigfoot Half Step is the ultimate outdoor step. It is height adjustable and you can add one or two support handles by simply clipping them in. It halves the height difference between the door and the ground, allowing the user to be steady on its large surface before attempting the next step.

The support handles fit in without tools, if you want to avoid permanently fixing a grab rail by the door and can be removed for transport.

The new design gives an impressive 50 stone (318kg) maximum user weight, with fixed grips to give our best possible slip resistance.

**190kg** 50 Stone / 700lbs

	Bigfoot Half Step	Bigfoot Support Handle
Height	4-5in/10-12.5cm	39in/1m
Part No.	66095	66096
Weight	6.1kg/13.4lbs	1.3kg/2.9lbs
Colour	Green and Black	Black
Metric (LxWxH)	754 x 444 x 10-12.5mm	455 x 45 x 975mm
Imperial (LxWxH)	29.7 x 17.5 x 4-5 inch	17.9 x 1.8 x 38.4 inch

# Springbok Handle

The Springbok Handle helps put some spring back in your step, by providing a second handle on your walking stick. It is ideal for standing up from a seat, getting out of a car or even after kneeling down for gardening. Two handles are much steadier than just one. The handle easily attaches to a wide range of walking stick diameters, from 19 – 22.5 mm (0.7 – 0.9 inch). The comfortable handle even springs out of the way when not needed so you can't catch it on anything. An essential extra for every walking stick.

**Product Code**

**28kg** 4.5 Stone / 62lbs

# Outdoor Half Steps

- Reduces the step height between a door and the ground outside
- Design gives slip resistance and allows rain to run off
- Can be linked as a platform step for walking frames

Our range of Half Steps have been developed to meet the needs of older or disabled people who find the height difference between a door and the ground outside too much to achieve in one go, such as at patio doors. The step halves the height between the door and the ground, allowing the user to be steady on the large surface before attempting the next step.

## Plastic Half Steps

Our plastic half steps are built for the outdoors: long-lasting even in cold or heat and will not rust. The step has four over-moulded feet which grip firmly against the ground and offer adjustability, so that the step can be made level on uneven ground.

### Derby Half Step

The Derby Half Step features a slip-resist mat and comes in 4 inch and 5 inch versions (10/13cm). The 5 inch step comes complete with a security fixing kit.

### Langham Half Step

The Langham Half Step is an attractive, cost-effective step with textured surface to provide grip. It is designed to allow rain to run off, preventing water collecting on top.

### Metal Half Steps

The K30 Half Step is strong and steady in use, with Nylon feet which can be adjusted to the level of the ground.

Where a walking frame is needed, you may find the K30L Half Step helpful, as it has a larger surface suitable for the user and their walking frame.

 **190kg** 30 Stone / 419lbs

A grab bar like the Prima Outdoor Grab Bar positioned next to the step, can help the user to make a steady transfer. We recommend treading centrally onto the step surface, rather than onto the edges of the step.

### Linking and Security Kits for Half Steps

The Linking Kit allows two Derby or Langham Half Steps to be linked together; making a large platform step suitable for walking frames. A Security Fixing Kit is also available to fix a step to the ground, ensuring stability and preventing theft.

**61094** Linking Kit, **61095** Security Fixing Kit.

When using a single step, it should be positioned with its longest side next to the building.

Using two linked steps to make a platform, put the shorter sides next to the building.

	Langham Step	Derby Half Step		K30 Metal Half Step	
Height	4in/10cm	4in/10cm	5in/13cm	4in/10cm	4in/10cm

## Prima Outdoor Grab Bar

- Discreet outdoor grab bar blends in with brickwork
- Strong plastic is warm to the touch, unlike metal rails
- Concealed aluminium core for a high maximum user weight

The Prima Outdoor Grab Bar is the ideal rail for outside, especially at the front or back door.

The subtle colour allows the bar to blend into its surroundings and be more discreet when positioned on brickwork, compared to white metal rails.

The Prima Outdoor Grab Bar is fully weather resistant, with horizontally over-moulded rubber grips, which help to prevent the users hand slipping down the rail, even when wet. It is always warm to the touch, and has an oval cross-section which ergonomically matches the human grip.

It features a high 160 kg (25 stone) [350 lbs] load limit, made possible by a strong concealed aluminium core, which runs through the middle of the rail. The length is 450 mm (18 inch).

As Grab Bars are subject to some hefty pulls and sudden tugs, it is essential that they are fitted competently, according to the instructions, or seek professional advice from a qualified tradesman.

### Product Code

- 6537 Prima Outdoor Grab Bar (Single Retail Pack)
- 6538 Prima Outdoor Grab Bar (Bulk Pack – 20's)

### Available Colours

Dark Green with Black grips

**25 Stone / 350lbs**

# Derby Tipper

- Pour a kettle or teapot without having to lift it
- Makes your existing kettle safer and lighter
- Heat resistant platform provides stability when pouring

Boiling a kettle is an everyday task, but it can be difficult for those with a physical tremor or a weak grip. The Tipper helps to solve this problem by removing the need to lift the kettle, making it lighter and safer.

For safety, a Velcro strap is included to anchor the kettle to the Tipper. We recommend using a small jug to fill the water, so that there is no need to lift the kettle off the Tipper.

An optional stability base is available, which helps to secure tall jug kettles and provides a tray to catch any drips.

## Product Code

6031/W Derby Tipper

61031/W Stability base for tipper

60315/W Derby Tipper & Base (complete)

# Derby Preparation Board

- Designed for single hand use
- Makes it easier to prepare a sandwich
- Hygienic plastic surface for quick cleaning

A food preparation board which creates a stable preparation surface for spreading with one hand, designed for those with limited hand use. The board is held in place by its curved lip, which rests against the work surface and by its non-slip contact pads.

The rear of the board keeps bread or other foods in place, preventing them from slipping around when spreading, or when picking the food up off the board.

## Product Code

6029/W Derby Preparation Board

## Dimensions (length x width)

Metric: ..... 220 x 220mm

Imperial: ..... 8.7 x 8.7"

## Available Colours

## Derby Tap Turners

- Suitable for both cross head and crystal taps
- Large colourful handle for easy identification
- Quick to fit, no tools needed

Standard household taps can be difficult to turn, especially for those with poor grip or arthritis. Derby Tap Turners can solve the problem, by providing a large textured handle which is easy to push, starting the flow of water.

They can be used on capstan and crystal type taps, with no tools required. The screw-in handle grips the tap with a soft non-slip lining on the inside, providing the extra leverage needed to turn them with ease. Colour coded in red and blue enabling those with impaired eyesight to quickly identify the correct tap.

### Product Code

60802 Pair of Tap Turners in Mail Order box

60800 Bulk Pack of five pairs in a Retail box

### Available Colours

Set of one blue and one red.

## Spill Not

- Helps you open jars and bottles of different shapes and sizes
- One hand operation
- Prevents spills

A kitchen aid to assist those with limited grip or the use of only one hand to open jars and bottles. Holds the jar steady when opening or spooning out the contents.

Three inverted rubber cones hold a container, from the smallest pill bottle to a large jar; upright, firm and steady. It will take a variety of shapes and sizes including child proof containers, from 2.5 cm (1 inch) to 10 cm (4 inch).

Rubber feet help to stop the Spill Not moving on smooth surfaces. It can also be fixed permanently onto a worktop or contained in a drawer ready for use.

### Product Code

6017 Spill Not

### Dimensions (length x width x height)

Metric:..... 245 x 150 x 85mm

Imperial:..... 9.6 x 5.9 x 3.3"

# Prima Modular Perching Chair

- Quick to assemble and easy to clean
- Angled seat for comfort while doing household jobs
- Adjustable to the ideal height for the user

The Prima Perching Chair positions the user in a semi-standing position so they are more comfortable while doing kitchen tasks and at the right height for work surfaces.

The sloping seats and arm rests make it easier for the user to rise out of the chair. All of the range is height adjustable, so the user can adapt it to perfectly meet their needs. Once adjusted, the legs are secured in place with clips.

The chair has a smooth contoured back rest, shaped to give a more comfortable support for the user's back. Each leg has a ferrule at the end which provides grip, even on wet surfaces. Holes in the metal work help to prevent water collecting inside.

This is part of the Prima Modular Chair Range – see the bathroom section for more.

# Derwent Trolley

- In-home transport
- Attractive hardwood
- Maintains independence

The Derwent Trolley enables the user to safely transfer food or other heavy items from one room to another. It is made from attractive Beech wood, with two heat resistant melamine coated shelves. The top shelf is at the ideal height for sliding a plate off the worktop/counter and on to the Trolley.

The Trolley has been designed to be comfortable in use, especially for those who may be a little unsteady on their feet. The lower shelf is cut away at the handle end to keep the shelf away from the user's legs, and the far end of the shelves have no lip, making it easier to transfer items on or off the trolley.

The castors have rubber tyres for easy manoeuvring across carpet, tiles and wood flooring.

## Product Code

# Cerebra Sledge

- Beautiful sledge for children with disabilities
- Seat on the back for parents or siblings to join in
- Moves in the snow when wheelchairs get stuck

The Cerebra Sledge was developed for Sarah, who had to sit inside while the other children in the village went off playing in the snow. She needed a fully supportive seat on a sledge that would not draw negative attention and would not get stuck in the snow. Designed to last many winters, it has a low centre of gravity and is fitted with straps, armrests and a lead for safety. **Gordon Ellis & Co** are proud to make these high quality wooden sledges for Cerebra.

# Sinclair Wedge

- Holds doors open with no bending
- Easily fits into your bag
- Magnet picks up dropped keys

Holds the door open for you while you go through it. The telescopic handle means no bending to put in place. It can even be used to pick up dropped keys thanks to the built-in magnet. Then simply put it back in your bag, or hang it on your wheelchair or door handle.
